

NEW QUACKERY.
Chicago Tribune—Pat Polks restored by using Dr. Cleveland's celebrated More-fat. Willis, agent, Honolulu.

A SMALL BUSINESS IN THE.
Washington Post—Having appointed his Private Secretary and one telegraph operator, Vice-President Stevenson will now close his p/e counter.

LEGISLATING FOR JOHN BULL.
New York Advertiser—England is not quite satisfied with the new Tariff bill, but it is hailed as a grand move in the direction of Free-trade. And that's what the Democratic party—the ally of England—is pledged to.

RAILWAY EFFECT AND CAUSE.
Cincinnati Times Star—Has anybody noticed what a full there has been in the excitement of railroad accidents since the gates of the World's Fair closed last month? * * * The railroads are not now engaged in an attempt to crowd a quart of water into a pint cup.

NAME THE DISCREET.
New York Sun—If William McKinley of Ohio isn't the Chairman of the Committee which has framed the new Tariff bill, he at least must be, in some mysterious way, a very high and influential member. At any rate, he is an honest man and no liar. God bless all honest men!

A MARRIAGE PROPOSAL IN SIAM.
Exchange—A declaration of marriage in Siam is simpler even than it used to be in Scotland. You ask a lady marry you by simply offering her a flower or taking a light from a cigarette if it happens to be in her mouth, and your family and the bride's family have to put up at least \$1,000 apiece for a dowry.

WIDOW WIVES MAKES SUPPLY.
New York Press—It is heartless to talk about letting the Democratic party have its way on the Tariff question and then holding it to accountability for the result. The chief sufferers would be hundreds of thousands of American men, women and children. Fight at every turn the Wilson conspiracy to beggar American labor.

HANDS OFF THE SCHOOL FUNDS.
New York World—A circular has been sent out 'from eminent Catholic authorities' in Baltimore urging the adoption of a school system which shall give to church and parochial schools of every denomination—Catholic, Protestant or Jewish—the status of public schools and the support of the public school fund. The circular aims to be distinctly unsectarian. It asks no more for Catholic schools than for those maintained by Methodists, Presbyterians or Episcopals. Its fundamental contention is that religion, as a basis of morality, must be a part of education if education is to be worth while. But unsectarian as its spirit appears to be, the proposal is exempt to the very highest degree. It seems to be so even if every citizen accepted its promise that religion is the only foundation for morals and that it should be a part of all education. The state has no function whatever with respect to religion except to protect all citizens equally in their perfect religious liberty. It has no right to tax one man for the purpose of propagating another man's religion. For it to teach any religion would be an unwarrantable invasion of provinces in which it has no business to intrude. The school funds are sacredly set apart to provide secular education for all the people. Hands off!

THE MITE SCHOOL OF THE M. E. Church.

THEIR will be a falling off in the amount of whisky manufactured in this state this year, one district having fallen off over 1500 barrels of grain milled this season. The boys had better get in a stock while it's cheap, for when it goes up they will have to be satisfied with hydrant punch.

Don't fail to attend the debate at the Y. M. C. A. Hall to-night. The subject and those who will handle it will interest all. And besides Alma A. Wadsworth will deliver about to be famous lecture, "The Mockery of Wine," and all who know him can rest assured of being entertained. It is free, and last fact should be a drawing card. Tomorrow are the young men.

The Kidnapper on the Car.
You may talk about the kidnappers, and that character called the "Star" of tortures given martyrs. You may rave about Siberia. And that deeper named torturer, But Siberia isn't it?

With the kidnap on the car.
A woman jumpy a cable With steps so firm and bold, While to her breast she gently pressed An infant six months old. The car, for reasons, couldn't start, So she began to fuss and haul That tiny child about. And here she handed him, Of how she handled him, Of how she handled him, Of how she handled him.

LEE O. TINGLE, a grocery keeper at Lexington, thought his wife was a bore, she having told him as much, and he tried to make her trip, which he did. She now seeks to make him trip by suing him for divorce.

The cold wave struck Owensville and as a consequence two marriage couples went wrong, and they walked five miles to meet each other. There are a great many people this year who want to meet the foot.

Don't miss the opportunity to have a free pass at the wonderful hog, given by the Mott Clothing Parlor. We offer big bargains in Suits and Overcoats. You will have a guess to every purchase. No 125 Market street.

The steamer *Irish Queen* is having a powerful search light constructed for her use, which is the name pattern as those used on the Manufacturers' Building at the World's Fair, and will throw an effective light five miles.

RARE bargains in every line at P. J. Murphy's, the Jeweler, Ladies and Gents' Wearer lower than ever. Scarf Pins, Charms, Chains, Rings, Earrings, Lace Pins, Sterling Silver Spoons. These goods will be sold lower than by any other house. P. J. MURPHY, Successor to Hopper & Murphy.

THAT dread malady, grippé, having again made its appearance in our midst, it behooves everyone to take all precautionary measures against the sudden changes in the temperature. A pair of footless Jersey leggings, of which you will find complete lots at ladies' and children's at Miner's shoe store, will be a source of great comfort and protection to you this winter. A full stock of ladies' overcoats also.

NELLIE BEAGLE, a neat and nice little married woman from the state applied for a charity pass at Cincinnati to take her back home. Nellie lived in a little blacksmith shop called Madison, in Warren county, had a little piece of ground and a nice little house that one could spit over. She couldn't stand property, so she sold out and went to traveling over in Ohio. After spending her little house and lot she thought she would return to her "Old Kentucky Home," and had to do it on a pass. The next line your wheels go wrong, Nellie, you had better go to get some one to assassinate you.

THE MONK!
By MATTHEW G. LEWIS, (MONK LEWIS.)

Mr. Lewis was a member of the British Parliament, and his book became so popular in England a hundred years ago that it gained for him the title of "Monk Lewis."

It is a fine piece of classic composition, and after being out of print for many years it has been reissued from the original text.

It is far superior to "Maria Monk" and books of that character.

PRICE 50 CENTS.

FOR SALE BY THOMAS A. DAVIS, MAYSVILLE, KY.

Consumption did its work, and now it has come to work on the father.

"Is buying a cough medicine for children," says A. S. Walker, a prominent druggist of Ogden, Utah, "never has failed me. Chamberlain's Cough Remedy is the best I have ever used, and it is so safe and reliable that I have found it to be safe and reliable. It is intended especially for colds, croup and whooping-cough." Fifty cent bottles for sale by John J. Reynolds, Druggist.

BISHOP DUDLEY confirmed a large class of colored people at Hopkinsville Sunday.

A NEW Presbyterian Church was dedicated at Louisville Sunday. It cost \$12,000.

The wind blew, and away went several of Lexington's best men—we mean signs.

HENRY DAVIS, aged 40, who died at Maysville Friday, was buried Saturday at Shannon.

THOMAS PERSON, who skipped from Richmond with another man's horse and buggy, was caught at Lexington.

ONE of the cases to be tried at this term of the United States Court at Covington is that of old lemonade joke from Mt. Sterling.

The latest news from Rev. T. W. Watts is to the effect that he is improving, and that he will be in the city will be pleased to hear this.

DR. P. G. SMOOT is out for business if signs will do any good. He has two, and can catch the eye going and coming and looking. Advertising paper is the only thing that can be done under the circumstances.

Those of our citizens who wish to see something that will entertain them should attend the grand spectacle drama, at the Opera-house Thursday night.

REV. R. G. PATRICK would be pleased to have you attend the First Baptist Church every afternoon and evening this week. He will entertain you, and you can depend on it.

MOSE JOHNS got gay Saturday night and thought Billie Cole's face was a wall and he tried to plaster it. "Squire Grant plastered him for \$10 and costs," says now Mose says the "Squire" is a tax.

The strike in the Newport Rolling Mills will probably be settled today. People who strike this kind of weather don't deserve work of any kind. Some workmen would be satisfied to see the earth.

CATLIE W. THOMPSON of Edmonston has succeeded in breaking up an illicit distillery in the Cumberland Valley that turned out three barrels of colic variola a day. He is a Deputy Internal Revenue Collector.

THE Hudson of the Cincinnati Packet has made but one trip in about five weeks, and the C. R. Editor says for a trip. The *Keystone State, Scotia and Iron Queen* has not turned a wheel during all the time mentioned. We have not had such a protracted suspension of navigation for several years.

A WRITER in the Lexington Leader "roasts" Professor Hicks on his claim to be a weather prophet. We don't blame him. Hicks' weather prophecies for November were as far from being right as the East is from the West. In fact, Professor Hicks' forecast of the month of December was as far from being right as the East is from the West.

COLONEL JOHN T. HOGAN of Versailles died at Lexington at the Protestant Hospital, where he was taken to be operated on for a malignant old wound received at Shiloh, while on the staff of General John C. Breckinridge. Colonel Hogan was formerly Editor of the *Lexington Observer and Reporter*, was a brilliant teacher of the old Prentice school, and an accomplished lecturer.

In the report of the Auditor of Public Accounts, which is soon to be published, it is shown that the State has received a few of the largest: Among those paying money into the State Treasury, Jefferson County has the list with \$29,292.75 to credit. Fayette comes next with \$10,131.35. Kenton, \$9,048.45; Bourbon, \$8,216.25; Campbell, \$7,258.45; Boone, \$6,747.75; Madison, \$5,300.85; Henderson, \$5,232.25; Clark, \$5,154.11 and Scott, \$3,004.25, following in the order named.

The success of Chamberlain's Cough Remedy in effecting a speedy cure of colds, croup and whooping-cough has brought it into great demand. Messrs. Pontius & Son of Greentown, O., say that it has gained a reputation second to none in that vicinity. James M. Queen of Johnston, W. Va., says it is the best he ever used. F. V. Jones, Druggist, Wilmore, Miss., says: "Chamberlain's Cough Remedy is perfectly reliable. I have always wanted it and it never failed to give the most perfect satisfaction. For colds, croup and whooping-cough it is the best remedy for sale by John J. Reynolds, Druggist."

"EDGEWOOD FOLKS," which will be seen at the Opera-house to-night, is a comedy of American life, pleasant and entertaining and free from the extravagance, coarseness and ultra-sensibility which make up the stock-in-trade of so much that is called a comedy. Mr. Heywood's specialties are strung on the thread of the story, with a good deal more consistency and naturalness than is common where anything of the kind is attempted. They are made to bear a part in the unfolding of the plot, and have some excuse for their existence. There is nobody on the stage who can sing a comic song with quite such facile manner, and certainly nobody who is more unmistakably in the spirit and meaning of his work than Mr. Heywood.

Don't let your child strangle with whooping-cough, when a bottle of Ayer's Cherry Pectoral is ready for a dollar.

WILLIS RANNEY, for twenty seven years in the employ of the L. and N. at Louisville, died in that city Sunday of typhoid fever.

LAST Wednesday night a dance was given at the Neptune Hall by some young men of our city, and running short of refreshments they went out to procure some material whereby they could replenish, going to a good old Christian lady on Second street they inquired if she could let them have a gallon of milk. The good old lady said that she could, thinking it was for the Y. M. C. A. supper, telling them she would do anything in her power to help a good cause along. Now, we surely wish to call this good old lady's attention to the fact that the Y. M. C. A. isn't in the field to make money by giving public balls, and the next time it is wished to make a donation it would be well to inquire a little.

POSTPONED INDEFINITELY.
In the Christian Endeavor Meeting at Maysville.

Due to the sickness of so many of the members of the Christian Endeavor Society, the meeting at the Convention of the Second District Union, Y. S. F. & C. E., which was to have been held December 10th, 11th and 12th, and a late telegram from the President, W. D. Rice of Augusta, announcing his illness, the Executive Committee thought it best to postpone the matter indefinitely.

The people of Maysville desire to have the Endeavorers know that they wish to give the same a convention that is worthy of the name and it would be impossible to hold a good one unless there was a full representation of all the churches and societies.

Of course there could be no objections to the Committee's final decision in this matter, as the postponement was the only thing that could be done under the circumstances.

The delegates that were appointed from this city will feel disappointed at the decision of the Committee, but when it is known that the people of Maysville wish to give all instead of a few a generous welcome the ones from our city who have gone will all appreciate the final decision, and when the Convention is again announced it may be that all will be well enough to attend.

MARGUERITE (REID) KACKLEY Scores a Decided Hit as "Priscilla" in the Bostonians.

Miss Marguerite (Reid) Kackley, the prima donna of the Bostonians, scored a decided hit in Chicago Thanksgiving, the audience counting her by thousands, and she was the footlights at her feet. The *Chicago Evening Post* has this to say:

"Marguerite Reid as 'Priscilla' is a dainty person. The birdlike lines of her face, the footlights, the flowers were appropriate. Here is the 'Priscilla' we have learned to love in Longfellow and no pale, prim, cold, but a creature not too bright and good for human nature's daily food. Her chaste, reserved face of education and singing were entirely in accord with the historic spirit of the role. In the waltz song and in 'Tis a Prim Time for the Maid' she displayed to the best advantage her rich and liquid soprano."

ROUGH TIME IN ASHLAND
Pittsburgh Iron Workers Will Sue for Damages.

Edward Ellis entered suit to-day against the Norton Iron Company at Ashland.

Many other suits for damages against the same company will follow.

Ellis and several companions went to Pittsburgh Friday night from Ashland.

They were the remnants of a party of sixty-eight iron workers who left Pittsburgh one week ago to work at the Norton Iron Works, under what Ellis claims was a misrepresentation of the state of affairs existing there.

Ellis states that he was previous to his going to Ashland, a man giving the name of J. W. C. Green, Superintendent of the Norton Iron Works at Pittsburgh, that the purpose of employing men to work in a mill that had been idle two and a half years.

\$150,000 secured the sixty-eight men, and they agreed to go to Ashland to work for \$1.50 per ton.

On arrival at Ashland they found a strike was on, and the whole community greatly excited.

Citizens, merchants, farmers and striking iron workers raised sufficient money to pay the fares of several of the men back to Pittsburgh.

Three of the party who refused to leave were forcibly driven from the town, a dose of them have not since been heard from.

The five men who had been driven from the iron mill had no money and have undoubtedly taken place.

Illinois, Kentucky.
From Danville, Ill., Mrs. B. J. Noddes writes: "I have been using your remedies for scrofula and am greatly benefited. My back was one solid sore. Two boxes of Dr. Hale's Household Ointment held it entirely."

From Olive Hill, Ky., Mrs. M. J. Matney writes May 13th, 1893: "My daughter has been afflicted with erysipelas in her eyes from infection of her nose. After five years she is now well and has cured her."

EVERYBODY has read Goethe's immortal poem, "Faust." Now, as we sit at the Opera-house Thursday night.

We believe there is going to be a "scrap." There were several men going East yesterday carrying anvils.

The scenery and electrical effects in "Faust" are gorgeous, and none of it will be left at the depot, as the company uses it all.

A LARGO born containing much valuable property was burned in Bullitt county yesterday, the second one within a week in the same locality.

C. P. BECKETT's many countenance is the "Faust." Now, as we sit at the Opera-house Thursday night.

The new gas post that has so long been in being placed in position at the head of Second street extension, and will prove a great benefit to pedestrians. Heretofore the gas light that is in the center of the bridge cast a shade on this side of the railroad bridge, and made it a dark and lonely place for anyone to walk at night.

The Business Way!

The business way to advertise is to take space by the year, like postage, and make your advertisements in making them attractive, and change them at least as often as once a month.
You may think there are seasons when you don't need to advertise.
We have never seen that time.
Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.
If you have space by the year, it costs you no more, and you can make it profitable by converting useless goods into money, and investing the money in those things which are salable.

Where is That Banner Now?
Greening (Ind.) Review.—During the last campaign the Democrats of this city displayed a banner in their processions bearing this inscription:
VOTE FOR GEORGE CLEVELAND
AND GET
\$1.25 A BUSHEL
FOR YOUR WHEAT.

A liberal reward will be paid for that banner at this office, and no questions asked.

Why does Mr. CLEVELAND consider it necessary to send the Tariff bill before Congress at all? Isn't he the Government? Why not appoint Chairman Wilson "Paramount" Commissioner to carry the measure into effect forthwith? This would relieve any Congress of a great deal of bother, and might tend to console Mr. Wilson for the oblivion which awaits him in West Virginia, whose interests he has ruthlessly sacrificed in order to please Mr. CLEVELAND.

For pains in the chest there is nothing better than a flannel cloth saturated with Chamberlain's Pain Balm and bound on over the seat of pain. If used in time it will prevent pneumonia. Fifty-cent bottles for sale by John J. Reynolds, Druggist.

O. N. Rogers, Of Adams, N. Y., ate nothing but dry bread for three years on account of that terrible disease, dyspepsia. LONDON, Dec. 3.—Prof. Tyndall is dead.

THE SECOND SESSION

OF THE FIFTY-THIRD CONGRESS NOW READY FOR BUSINESS.

WASHINGTON, Dec. 3.—The second session of the fifty-third congress, at this first regular session of congress will be officially known in the records, opened Monday in both houses with all the quietude that was brought about by a lack of anticipation of excitement, and by an indifference on the part of those present that the session had been opened. Only that portion of the galleries which is open to the general public, and which in these cold, winter days is the most popular, with the homeless portion of the local population, was filled. The galleries reserved for the members' families, for the diplomatic corps, and for the white house family were almost empty, there was little of that effusive handshaking and welcoming that usually marks the first day of a new session because it was only a few short weeks ago that the members separated. The general knowledge that the tariff bill would not be brought into the house for several days to come completed the general indifference and indifference to the scene which ushered in the new session. The presence of the destroyer, Death, was evidenced by the heavy draperies which the mass of white flowers so marked the desk of Gen. Lilly, the deceased congressman at large from Pennsylvania.

A simple sheet of ripened wheat, symbol of the life and activity of the man, lay on the desk of the late Congressman. The business of the house began and the reporters for the press association had bent down to their work at the little tables just beneath the speaker's rostrum. The house worked with a pang of regret the absence of "Charlie" Hayes who for twenty-two decades had reported with intelligence the proceedings of the house for one of the great press associations.

The usual etiquette of notifying the president by a committee from branches of congress that a quorum of members was present and awaited any communication he might have to make, was followed by the equally conventional report to each house, that the president would forthwith communicate to them a message in writing. Robert S. McMillen and Sherman, the latter of whom by the way was the most remarkable man in the session today because of the large white carnation in his button hole, the executive clerk of the White House holding in his hand the "message in writing."

After delivering the message to the senate Mr. Pruden delivered the same document to the house. The reading of the message began at half-past one o'clock.
In neither house did the reading of the message command serious attention. This was partly due to the interesting nature of the document itself and partly to the wretched delivery of the reading. The message was delayed in order that the message of the president might be read in the house before that body gave its usual token of respect to the deceased by the way of an immediate adjournment after the announcement.

BALLOTS OR BULLETS?

An Impetuous Speech by a Prominent St. Paul Pastor.

St. PAUL, Minn., Dec. 3.—Speaking to a meeting of laboring men Sunday evening, Rev. John W. Crooks, pastor of the Burr Street Baptist Church, made what is regarded by many as a very incendiary speech. He said: "Everything runs to trusts. Just think of flour. Wheat has been selling all the fall at about fifty cents a bushel, half the usual price. But I ask in God's name, who has been buying flour at about one-half the usual price? The flour merchants and the public are not satisfied with the whole hog, but they want hog, pen and swill-pail thrown in. Sooner or later there will come an explosion. It came in France in the days of her communism, and the blood of her tyrants flowed like water when she fertilized the fields. It came in England under Cromwell. The heads of kings and nobles fell like snowflakes. Whether the present inequality will be wiped out with ballots or bullets I can not tell, but I pray by ballots."

MINISTER WILLIS

Lets Drop a Very Significant Remark Concerning Hawaii.

PORT TOWNSEND, Wash., Dec. 3.—The boarding ship Capt. C. J. Williams arrived Monday from Honolulu, with advices to November 30, four days after the steamer Albatross sailed for San Francisco. In an interview Minister Willis is reported to have said: "You are authorized to state that no change in the present situation will take place for several weeks. I brought with me certain instructions from the United States government on the Hawaiian situation. Since my arrival contingencies have arisen about which neither the United States government nor myself was aware when I left Washington. I have thought best in the exercise of the discretion allowed, to submit those matters to Washington before proceeding further to carry out my original instructions. No one need fear trouble and no lawlessness will be permitted."

English Quakers Protest.
LONDON, Dec. 3.—There is a movement on foot among the English Quakers looking towards the sending of a united remonstrance against the action of American Friends in depositing from the ministerial office those persons refusing to subscribe to the Declaration of Faith.

ELECTRICITY ON THE PYRAMIDS.

How Arab Gods Were Frightened by a Party of Scientists.
In his autobiography the late Sir W. Siemens relates the following anecdote: An Arab called his attention to the fact that when at the top of the pyramid of Cheops, when he raised his hand with fingers outspread an acute singing note was heard, the sound ceasing as soon as he let his hand fall. "I found his assertion," he writes, "to be true. As soon as I raised one of my own fingers above my head I felt a prickling in the fingers. That this could only be caused by an electrical phenomenon was proved by the slight electric shock felt on trying to drink out of a wine bottle.

"So I wrapped a full bottle of wine that I had with me in the damp paper, and thus converted it into a Leyden bottle, which was soon strongly charged with electricity by the simple device of holding it high above my head. The Arabs had already become distrustful of seeing small lightning bolts as it were, issue from the wine bottles held up by myself and companions, and now held a brief consultation. Suddenly, at a given signal, each of my companions was seized by the guide who had led him up, who now tried to force him to go down again.

"I myself was standing at the very top of the pyramid when the sheik of the Arabs came to me and told me through my interpreter that the Arabs had determined that we were to leave the pyramid because we were practicing magic and it might damage their chance of their earning a living. On our refusing to obey orders the sheik caught hold of my left hand. I had awaited this moment, and I held up my right hand with the bottle in the attitude of a magician, afterward lowering it slowly toward the point of the sheik's nose.
"When quick close to that feature I felt a violent shock run through the bottle to my own arm, and was certain that the sheik must have received the equivalent of a ray of light, and less on the stones, and a few anxious moments passed before he rose suddenly with a loud cry and sprang down the gigantic steps of the pyramid with long strides. The Arabs, seeing this and excited by the sheik's constant cry of 'Magic magic!' released my companion and followed their leader leaving us complete masters of the pyramid."

NASHVILLE, TENN., March 6th, 1893.—The *Stockton Medicine Co.*, Nashville, Tenn., Gentlemen: It gives me exceeding pleasure to speak of your Antipainic, as I consider it something wonderful in the way of medicine.

My servant Albert, who is 72 years old, was very sick with pneumonia, complicated with heart trouble and dropsy. I called in my family physician and gave him every attention, but the doctor finally told me there was no hope, and the only thing that could be done was to make him comfortable until the end.

At this point I decided to give him *Stockton's Antipainic*, as it seemed to be performing all the duties of a doctor. It was given in regular doses every three hours and the fever subsided, the dropsy disappeared, and decided improvement was noticed the first day.

In three days he was sitting up and in a week he was back at his work as usual, and is now as healthy as I have ever known him. I respectfully believe it saved the old man's life. Respectfully yours, FRANK STEPHENS, No. 5 North Block.

Is the silent drummer that

tells the public what you want them to know—about your business—about what you have to sell.

The best advertisement is the one that appeals to the eye—is conspicuous.

The business man that cannot use printing has nothing to sell.

An intelligent use of printing pertaining to a business is as necessary to draw trade as the salesman behind the counter is to sell the goods.

An investigation of the methods of the largest—and shrewdest—of National and local business men will convince any one that printing needs no champion.

SOME VIEWS OF Prominent Legislators on the President's Message.

Wilson Pleased at What He Says on
the Tariff Question.

Congressman Duffell Says the President's
views on the Tariff are in line with
those of the House on the Tariff.
—Read says it is disappointing.

WASHINGTON, Dec. 4.—Some of the
views of the prominent legislators on
the president's message are as follows:
Mr. Wilson (dem., W. Va.), chairman
of the ways and means committee,
said: "I am especially pleased at
what he says on the tariff question."

"Able and appropriate," was the
comment of Mr. McCreary (dem., Ky.),
chairman of the house foreign affairs
committee. "It contains much valuable
information."

Dr. Dulzelle (rep., Pa.): "The president's
views on the tariff seem to be on the
line heretofore laid down by him. He
thinks a protective tariff invariably
increases the cost to the consumer.
We know that such is not the
case under the interpretation of
the McKinley law, a fact that would
have been apparent to the president if
he had seen fit to read testimony
taken before the ways and means
committee. Of course, as was to be
expected, he is still after the markets
of the world, a very desirable thing if
present conditions continue, because
there won't be any market at home or
any money to spend in the west. The
most astonishing thing in the message
is that an income tax has been agreed
upon. That is news. I happen to be a
member of the committee on the ways
and means committee, but it is the first
time I knew such a tax has been agreed
upon, although I have inquired directly
about it every day. It is a fact that
the tariff is concerned in the message
is not a valuable contribution to the
discussion. What he says is not new,
although he says something that is
strange."

Mr. Byrum (ind.), "It is a very
concise but cynical statement of the attitude
of the questions which congress will
be called on to consider."

Mr. Springer (dem., Ill.): "The message
is concise and able exposition of the
present condition of the country."
Mr. Reed: "It is exceedingly
disappointing both in matter and manner.
It is largely made up of a wearisome
repetition of the reports of his secretaries
which have hardly improved by
condensation. One the Hawaii question
we were left as much in the dark as
ever, and must await the
news of the next steamer just
as we have been for a long time. The
president's message which relates to
the tariff is most surprising. It asserts
that the house committee in
charge of the subject had formulated
plans and devised a tariff schedule, and
that as a member of the committee,
I have never even heard proposed. It
is a rather unusual sensation to learn
of the deeds of the committee of the
committee room, but from the
president of the United States. Senator
Sherman and Senator H. H. Hill
refused to express opinion, while Senator
Murphy, of New York, said: "It is
an able document."

Negotiating for the Vigilant.

BERLIN, Dec. 4.—It is reported that
General William is negotiating for
the purchase of the American sloop
yacht Vigilant, which recently de-
feated the British cutter Valerian in
the waters for the American flag. It is
added that if the emperor is successful in
securing possession of the Vigilant he
intends to have it brought over to
Germany, where she will be re-fitted
for racing in British waters during next
year's season.

Fatal Snow Slides.

BURR, Mont., Dec. 4.—Snow slides
occurred Wednesday night at Bozula.
Four men were buried, and three taken
out dead. A second snowslide occurred
Friday night at Lyons, Ky. Three persons
were perished and several others were
badly injured. An attempt will be
made to break up the vast body of
snow on the mountain by the use of
gun powder. The snow is heavier
than ever before known in this section
so early in the season.

Weekly Treasury Statement.

WASHINGTON, Dec. 5.—The weekly
treasury statement shows a decrease of
\$223,540 in the net cash in vaults and
an increase of \$440,469 in deposits in
national banks. The change in the
net cash balance was a gain of \$113,930.
The receipts from internal revenue
Monday were \$966,739, from customs
\$205,499 and miscellaneous \$211,974.
The national bank notes received Monday
for redemption amount to \$250,153.

Another Bank Closes.

GRAND ISLAND, Neb., Dec. 4.—The
heaviest financial crash that has struck
this city in a long time was announced
Monday morning by this simple notice
on the door of the Citizens' National
bank: "Owing to slow collections
the board of directors of this
bank have ordered the same to be
closed." (Signed) C. A. Mohrenstecher,
cashier."

Accidentally Killed.

OMAHA, Neb., Dec. 5.—A party of Omaha
hunters went to Calhoun, Neb., Sun-
day, to hunt rabbits. One of the party,
stopped to rest and stood his
shotgun against a tree. His dog,
playing around in the snow, ran
against the gun, knocked it down and
it was discharged, the lead striking
Woods in the side, inflicting a terrible
wound, which soon caused death.

CONDENSED NEWS

Gathered From All Parts of the Country
By Telegraph.

Commenting upon the president's
message the London Daily Graphic of
Tuesday morning, compliments Mr.
Cleveland upon his firmness and con-
sistency.

The New York locomotive machine
works, Rome, N. Y., took fire Monday
evening and most of the buildings were
destroyed. The property was valued at
\$800,000, and was insured for about
\$300,000.

The Louisville Courier-Journal says
of the message that "the criticism to
which President Cleveland's message
is subject is too long, dealing too
elaborately with the details of the de-
partment report."

The New York Sun says: Cleveland
devotes more space to the message
as an excessive purchase of seeds by
the department of agriculture than to
the momentous enterprise of throne
building which he has undertaken in
Hawaii.

A New York morning paper printed
Monday opinions of 171 members of
congress on the subject of taxing in-
come. Of these 71 favor an income
tax in some form, 93 oppose it, 3 are
against it, but may reconsider, while
34 asked to be excused from expressing
an opinion.

E. C. Williamson, mayor of Hazel-
hurst, Miss., was brutally murdered by
Kirby Miller at 12 o'clock Monday.
Miller slipped upon a vine in the street
and struck him on the head with a
stick about the size of a baseball bat.
The people of Hazelhurst are
visibly excited.

The Chicago Times says of the mes-
sage: "Like all of Mr. Cleveland's
messages this document is encyclo-
pedic. The substance of the reports of
each of the cabinet officers is given
and the whole forms a creditable and
valuable statement of the position and
needs of the country today."

At Erie, Pa., Edward Cady, aged
thirty-eight, killed his two children
Monday morning, threw a bullet into
his own brain. The victims were a
boy and a girl aged six and eight.
Cady was a moraine and seemed to
labor under the impression that his
family and himself would become hope-
lessly insane if allowed to live.

Gov. McCleek received in his mail at
Denver, Col., Monday, a long paper
which is being widely circulated by
the revolutionists among the common
people along the border. The document
is addressed to the Mexican soldier.
The appeal declares that the
revolution is bound to grow until
either the rebels are all destroyed or
the revolutionists are victorious and
ruled by the domination of the tyrant.
